Please note: We are an informal group of friendly bicyclists - **We do not scout the routes or sweep the rides (look for lost riders)!** In order to have a good time (i.e., finish before sunset), you should be able to ride twenty hilly miles in two hours and know how to follow a map and cue sheet, on your own if necessary.

Town

- For everybody's safety, please be alert when riding in a group. Ride a straight line, and look behind you before stopping or passing, especially at the start when everyone is bunched together.
- On these country roads, be particularly careful turning corners, where sand and gravel can cause you to skid. **When cars approach from ahead or behind, alert your fellow riders and pull into single file.** ("Car up!" and "Car back!" are the standard warnings.)

Recommended equipment:

- **PLEASE Print your own map and cue from the website!**
- Bicycle helmet
- Multi-speed bicycle in good condition - there are usually serious hills on WNBR
- Water (and maybe a little food)
- Spare inner tube, tire levers, and a tire pump
- Rain gear, windbreaker or jacket depending on the weather
- Cell phone
